SECRETARY

Dear Magalie R. Salas,

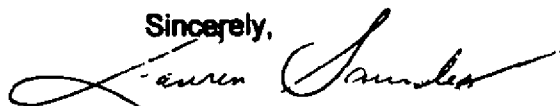

CP06-54-000

700 NOV 28 A 3:57

I am writing to you regarding the proposed project, called BENERGY, Placing a Liquefied Natural Gas terminal in the middle of Long Island Sound is unacceptable. It would be too costly to taxpayers who would foot the bill for firefighting resources as well as security. It is foolish to put a potential weapon of mass destruction in Long Island Sound where recreational fishing goes on. This is a body of water Long Islanders should have free and safe use of without armed security marring the serenity and an eye-sore barge floating in our beautiful Sound.

If we let this project go through, who will be invading our waterways next? Let's leave it to the fish.

Sincerely,

Lauren Saunders
